- + 120 minute timer
- + Triple glazed oven door
- + 80 litre gross oven volume capacity
- + Lower storage compartment
- + 5 Level wire rack support
- + Height adjustable feet
- + Stainless steel finish

9 MULTI-FUNCTIONS:

CONVENTIONAL

This method of cooking provides traditional cooking with heat from the top and lower elements. Particularly suitable for traditional roasting and baking on the centre shelf only.

FULL GRILL

Full grill is the perfect option for quick grilling. Toast your favourite meals or finish off the tops of your recipes.

DEFROST

In defrost mode, no heating elements are used. Only the fan is activated to circulate air inside the oven for defrosting. It defrosts food up to 30% faster than traditional methods.

OVEN LIGHT

The oven light will automatically turn on once any function is selected, helps to monitor the progress of your cooking.

FAN FORCED COOKING

For the ultimate roast or perfect batch of pastries. The element surrounding the fan delivers even heat for even cooking results, approx. 160°C - 180°C is recommended.

DOUBLE GRILL + FAN

This Combination is exceptional for cooking meats such as poultry, game and roasts, making them crispy on the outside and tender in the middle.

TOP ELEMENT + GRILL ELEMENT

Grill or toast enough of those favourite after school snacks to feed an army with the top element function.

BOTTOM ELEMENT

Great for pizza cooking, the bottom element creates the perfect cooking function for base cooked food.

THERMOWAVE FAN ASSISTED

This is the position where the heat is coming from the lower and upper heating elements and the heat is circulated into the oven by the fan motor and blades.
